OWN ART
1913-17

Local News.

E. T. Morris has moved to the city of Morinsville.

Mrs. Claypool, Acme, is visiting with Mrs. J. O. LaFrance.

Dr. Gillespie left for Delburne last week, where he intends to practise.

Geo. Royce has moved his family to Morinsville, having opened a blacksmith shop there.

Harry Small had good success at the Calgary bantam. The risk he played in was well up in the prize list.

Mr. and Mrs. Geo. E. Bowker left on Saturday for Winnipeg. Mr. Bowker is attending a lumbermen's convention in the above-named city.

Mrs. W. J. Lorimer and Mrs. J. Slater spent the past week in Calgary and Banff. Notwithstanding midwinter Banff is busy, with lots of visitors.

The Lacombe Trail Rangers hockey team were guests of Ponoka Excelsiors on Saturday afternoon. The visitors were victors, the score standing 1-0.

The Band dance, held in the Empire Theatre Monday evening was about the most successful affair of the season. There was a very large attendance.

Two hockey games were to have been played in town the past week—Leduc was to have been here on Friday and Wetaskiwin on Monday, but on account of the cold snap they had to be postponed.

The delegates to the big Calgary convention have returned to their homes brimful of new ideas, fresh inspiration and new pledges, which will no doubt, given time to digest, tend to the making of a better world. According to reports the convention was very successful.

The Women's Institute held a very successful sale of home cooking in the Reid Block Saturday afternoon. Notwithstanding the cold weather the sale was well patronized and a handsome sum realized.

Some snow, and then a real cold snap. Sunday morning the thermometer registered 52 below, the coldest of the season. Since then the weather has come back to mild, and the best thing to do is to forget all about that cold snap.

Accompanied by 13 wolf hounds and six pack ponies, two well-known Ponokaites set out on a coyote hunt recently. They covered the country from Fresh Fish Lake to Kippared Lake, and had some exciting experiences. In the vicinity of Kippared Lake they were almost overcome in a blizzard, but found a haven in the fishermen's huts on the lake shore. During their ten days' outing they saw several coyote tracks, but otherwise the hunt was a blank. That Angus and Clayton will have better luck on their next adventure is the sincere wish of their many friends.

A number of ladies in town are busy organizing an Eastern Star lodge. This order is in connection with the Masons, and as several of the ladies already belong to the order and are enthusiastic over the idea, no doubt a lodge will be organized.

A rink of Ponoka curlers visited Lacombe on Thursday evening and had a nice friendly game with our neighbors to the south. They were beaten. A thousand pities that some of Ponoka's real curlers would not take an outing and just show the world what this live burg can really do in the way of curling.

May the good Lord send a great big flood early in the spring, or there is no telling what will happen.

The aroma from the river is simply appalling. Not only can it be felt out of doors, but it is permeating the homes, and when one awakes in the morning it is something of a conundrum to know just where you are—in a bedroom or some where else! Talk about the pollution of streams. Is there such a lake? If it is allowed to go on it will surely be a measure of the innocent when the warm weather comes around. It is a ghastly outlook—the ladies complexioners going or gone, and paint and powder at a premium; in fact humanity and every living thing is commencing to look green. But enough has been said. Cannot something be done?

HILL-NEFF

Dr. and Mrs. J. A. Neff, Edmonton, announce the engagement of their daughter, Helen Gladys, to Mr. Alexander Gordon Hill, son of Mrs. Margaret Hill, formerly of Edinburgh, Scotland, the marriage to take place early in March.

Los Angeles, Jan. 21.—Indictments were returned by the federal grand jury here yesterday against Herbert Wilson, who formerly held pastorates in Canada and Oregon, and Herbert Cox, of Los Angeles, on charges of holding up and robbing a mail truck of \$750,000 in money and valuables here last March. They were arrested here several weeks ago.

Andrew Lundgren is doing presiding and cleaning. Parties desiring his services please phone 1018.

Wanted, Two Gentlemen to Board and share lard warm room. Apply, Herald Office.

A snap on used Drills and Gang Plows. BRADY & MORGAN.

Good meals, clean comfortable rooms, and good service can be had at the Alberta Hotel, under new management.

Mrs. J. B. BEATTIE, Prop.
Mrs. G. D. Clark wishes to announce that she has opened a maternity home, and is prepared to receive applications for reservations. For references see Doctors Graham, Campbell and Gillespie. Terms moderate, but strictly cash.

REXALL COD LIVER OIL EMULSION

General Pays Tribute To British Troops On Leaving Ireland

Dublin.—A striking tribute to the departing British troops is paid by General Sir Neville Macmillan, chief commander of Ireland, in a special order of the day. He says: "The government is giving notice that the time has arrived to commence withdrawing troops from Ireland. I wish to express deep appreciation for the services rendered from the time they formed part of the Irish command."

"While I feel there is no desire on the part of the army to rake up past animosities or bitterness, you have not failed to perform duties in many respects repugnant to our traditions and devoid of all the glamour of war, though in many ways entailing greater strain and greater individual danger."

"The call has been answered in a manner worthy of the best traditions of the service. I honestly believe that other troops in the world could have carried through the work in which you have been engaged without loss of morale or prestige."

"You officers and men have accomplished the most difficult task any soldier can be called upon to undertake. You emerged with your discipline unshaken and your conduct in the eyes of all fair-minded men blameless. When history is written you will find you contributed no inconsiderable share towards what we hope may prove a proven chapter of peace and prosperity for Ireland."

"The General concludes, with his personal thanks, saying the soldiers' own moral conditions, proved they were second to none."

WEST WILL HAVE REPRESENTATION IN FEDERAL HOUSE, SAYS PREMIER

Newmarket, Ont.—That there would be a departure from government by Order-in-Council and a return to representative government under the Liberal administration now in power, was the declaration of the Prime Minister, Hon. W. L. Mackenzie King, to North York electors at the nomination meeting here.

The Prime Minister dealt with matters which had confronted him in the formation of a cabinet. Concluding as they were and the ministerial had all had to be considered in that task. Geographical considerations were important in Western Canada, was almost representative in its parliamentary representation, but it would not have been proper to suggest that the west should be without representation in the new administration because of that. The Prime Minister said that he had therefore "canned" it, even known to the leaders of the Progressive movement that he was prepared to consider including in the government certain of their number who were known to him, in the largest measure, the confidence of those coming their group on the underhand, however, that it was a Liberal administration which was being formed and that anything in the nature of recognition on the basis of color or compromise could not be entertained.

"For reasons necessarily a matter of their own concern," declared the premier, "I was not felt by those with whom I conferred, that an advantage could be taken of their position within the limited time within which action was necessary."

which action was necessary, of the situation thus assumed."

Hon. Mr. King said he had reason to believe that the attitude of good will they expressed and the support without effect for good in the relations between the constituent elements of the political position, and that where identification of the Progressive with the Liberal party in matters of government had not been possible, at least co-operation in the work of government along Liberal and Progressive lines had been materially furthered.

"The Prime Minister declared, amidst applause, "It is important, constantly to remember in the conduct of our government, that there are differences. Whether they be religious, economic or political, these, the things we hold in common are usually more important and, fortunately, vastly more considerable than those which divide us, and that the common good is usually the highest good of all."

Hon. Mr. King dealt with the personnel of his cabinet and said the members chosen had proven satisfactory to the press and the country generally. The west had been given representatives in the cabinet, and the Prime Minister intimated that within a short time other ministers from the western provinces might be expected to join his government. The need for national unity was stressed by the Premier, who said he had striven to give this a tangible expression in choosing his cabinet.

Invitation From States Accepted

Representative From Chile Will Study Treaty of Amity.
Santiago, Chile.—Chile, it was announced, has accepted an invitation from the United States Government to designate a plenipotentiary at Washington to study the proposed execution of the Treaty of Amity, despite the severe Panama-Chilean dispute which the United States has extended a similar invitation to Peru.

Fix Minimum Wage
Toronto.—The minimum wage board is preparing to issue orders governing minimum wage rates for the retail stores of the entire province. Up to the present, rates have been fixed in govern in cities and towns and range up to a minimum of \$12.50 a week in Toronto with slightly lower rates in smaller cities and towns.

Farmers Decide That Export Meat Business Is Not Profitable

Calgary.—Expressing an opinion that the establishment of any scheme for wheat marketing would be unlikely to secure for the farmers the money to make it a problem for serious consideration, J. B. Muscatelli, secretary of the Saskatchewan Grain Growers' Association, speaking as a national delegate to the United Farmers of Alberta convention, stated that the farmers must go through a period of suffering during the time in which there was being brought about a re-establishment of a reasonable parity between the prices at which the farmers have to buy and that they have to sell. Such a time of distress, he thought, was impossible to avoid, and it must be borne by the farmers, laborers and business men alike.

United Farmers of Alberta at this time will not go into the co-operative meat business. After a long discussion, the 14th delegates decided to table indefinitely a report from a special committee which recom-

Six Million For Salmon

British and France Take Bulk of B.C. Vitals.
Victoria, B.C.—In British Columbia, 602,418 cases of salmon were packed in 1921, and 6,000,000 was received. There remains to be sold 120,000 cases of "pinkies." France absorbed a large proportion of the 1922 cases of salmon, and the United Kingdom, which had taken half of the sockeye pack of 1921, 314 cases, leaving about 75,000 cases for Canadian consumption.

Motherwell Elected
Regina.—D. H. McLeod, motherwell's election to the Regina constituency in the House of Commons was made an acclamation by the announcement that the motherwell was not opposed to nomination. The occasion of the announcement was the nominations in connection with the hysteria made necessary by the appointment of Mr. Motherwell to the portfolio of agriculture in the Dominion Government.

Hon. C. M. Hamilton spoke to a resolution favoring the re-establishment of a wheat board, declaring that in this lie the only real solution for the problem that will confront the country this year.

Hon. S. J. Latta, minister of education, gave notice that he would move for leave to introduce a bill to amend the School Act.

Wants to Sell Managerie
Soda.—King Doris of Bulgaria is the modern "man with an elephant on his hands" and he wants to sell his private managerie. Particularly, he would like to dispose of two elephants, which he has had which are now in the grounds of the summer palace near Sofia.

Germany Makes First Payment
Paris.—Germany has made her first payment of 1,000,000 gold marks in accordance with the recent decision of the reparations commission at Cannes providing for such payments every ten days, pending a decision on the whole reparations issue.

Influenza Epidemic Spreading in England
London.—The outbreak of influenza is still widespread, and soldiers and marine crews are unable to put to sea for their annual exercise with the Atlantic Fleet on account of its ravages among them.
At Dover the attendance of children at the moving picture theatres is prohibited, and the public schools are closed. At Northampton one-third of the teaching staff is down with the disease.
At present the weather is cold, and it is thought it will cause an abatement in the disease.

France Eagar For Understanding
Message From Poincare Gives Satisfaction to Lloyd George.
London.—Lloyd George has sent a message to Poincare expressing the desire in behalf of the French Government to repeat assurances, already given privately, that France is eager to resume "cordial examination of the various questions at issue between the two countries."

He is convinced the two peoples, who have been so closely allied on the field of battle, should be able, with common interest, to maintain peace in Europe and assure execution of the treaties signed and the reparations demands caused by the invasion.

The message, together with the reply of Mr. Lloyd George, was given out by the foreign office.
"My colleagues and I received with great satisfaction your cordial reaffirmation, in behalf of the new French Government, of the assurances we exchanged last Friday," says the prime minister.

Describing it as superfluous to repeat the assurances already given, he recently published, Mr. Lloyd George concludes:
"We desire only, as we are glad to note you also desire, so to settle the outstanding problems that nothing may impair the completeness of the peace between our people and ours, and thus carry the comradeship of the European peoples together in a just and abiding pact of peace."

Staff of Experts Includes Canadian
Going to South Africa to Erect Grain Elevators.
London.—Office of the Minister of Agriculture has obtained the contract for the erection of the South African grain elevators for South Africa on January with the remainder of the staff of experts, consisting of 26 Canadians and a number of Englishmen, Australians and Americans.

"Mr. Menzies emphasized the fact that his firm was Canadian and that the material to be used would be mostly British or South African. Out of an outfit of £125,000 in construction work less than £20,000, he said, would go to foreign countries for special requirements which could not be supplied by Great Britain."

Death of Ex-Chief Justice Wetmore
Regina.—Edward Ludlow Wetmore, formerly chief justice of the Supreme Court of the North West Territories and later of Saskatchewan, died at Regina, B.C., Thursday morning, following an illness of paralysis and complications of some years' duration.
The remains of the late chief justice are being sent to Moosemound for burial in the family vault where where his wife is buried.

Want Transfer Of Natural Resources

Interesting Debates In Saskatchewan House on Important Subjects.
Regina.—Lengthy debates on important questions occupied the attention of the House of Commons last week. The question of salary reductions in the civil service was the first of the series of questions.
A resolution on the transfer of natural resources reads as follows: "That in the opinion of this Assembly the Government of Saskatchewan should continue to urge upon the Government of Canada the necessity of arranging for the transfer to the province of the public domain within its limits without further delay."

Hon. C. M. Hamilton spoke to a resolution favoring the re-establishment of a wheat board, declaring that in this lie the only real solution for the problem that will confront the country this year.

Hon. S. J. Latta, minister of education, gave notice that he would move for leave to introduce a bill to amend the School Act.

Wants to Sell Managerie
Soda.—King Doris of Bulgaria is the modern "man with an elephant on his hands" and he wants to sell his private managerie. Particularly, he would like to dispose of two elephants, which he has had which are now in the grounds of the summer palace near Sofia.

Germany Makes First Payment

Police Wound Men Who Resisted Arrest
Belgian Charged With Obtaining Money Under False Pretences.
Vancouver.—George Durston, a Belgian, is in hospital suffering from bullet wounds in the right hand and left arm, arrested on a charge of obtaining money under false pretences. Durston is alleged to have advertised for workers for a paper mill which was to be started at Coquitlam, B.C., with Belgian capital. He is said to have collected a deposit from prospective employees on account of board and lodging to be arranged for.

Ontario Dairy School Destroyed By Fire

Loss is Estimated At Forty Thousand Dollars.
Kington, Ont.—Fire destroyed the Eastern Ontario Dairy School, property of the Ontario Government, containing an estimated loss of \$40,000. The output of the school, which was engaged in the manufacture of butter, was about 150,000 pounds a year, and about 150,000 will be affected by the fire.

Orange Crop Hit By Frost
Los Angeles.—A heavy frost of oranges were frozen on the trees in the citrus district surrounding Los Angeles last night. The loss cannot be estimated, being dependent upon weather conditions during the next few days.

It is the most severe frost in Southern California in nine years. Today continued cold and the government weather forecast said that the same tonight as last night.

There will be a shortage of lemons next summer owing to the damage to young fruit.

Working For Blind
Victoria.—It is probable that a workshop for the blind will be established by the Federal Government in Victoria, where those afflicted may occupy their time in useful pursuits.

Prince's Long Journey
Madras, British India.—The Prince of Wales has started for Bangalore on the first stage of a long journey through Central India and tops the heart of Kashmir.

Why Fifteen-Cents Worth of Prunes Costs Sixty-Nine CENTS
Not that a grocer makes too much money, but too many grocers per pound of prunes.

—New York Tribune

U. F. A. Ask For Reinstatement Of Wheat Control Board

Calgary.—A demand for the reinstatement of the Canada Wheat Control Board, under the chairmanship of James Stewart, passed the convention of the United Farmers of Alberta after a long discussion with not more than half a dozen dissenters.

Europe Will Need Imports of Food

Countries Looking to Canada and U.S. For Supply.
Washington.—Europe this year will require huge imports of foodstuffs from Canada and the U.S., according to an announcement made by the U.S. department of agriculture. The announcement was based on the report of G. F. Warren and W. F. Chandler, who returned recently after making a study of European agricultural and market conditions.

Germany alone, it was said, will need 2,000,000 tons of imported foodstuffs before the next harvest, and the United Kingdom, France, the Scandinavian countries, Czechoslovakia, Austria, Italy and Switzerland are looking to this continent for great quantities to supplement their own supplies.

Elected By Acclamation

Mackenzie King Returned Unopposed In Each of Three Ridings He Has Represented

Ottawa.—Official notice of the withdrawal of J. A. M. Armstrong, Conservative, from the byelection in North York, which received by the chief electoral officer late this afternoon, and the returning officer for North York was thereupon instructed to declare Hon. W. L. Mackenzie King, prime minister, elected by acclamation.

Under the Dominion Elections Act, any candidate nominated may withdraw at any time after his nomination and before the closing of the poll by filing with the returning officer a declaration in writing, to that effect signed by himself.

Programme For The Genoa Conference

Many Questions of Great Importance Will Be Discussed

Paris.—The programme of the coming economic conference to be held in Genoa has been officially made public. The questions to be discussed will be first, examination into means for putting the world's economy on a sound basis, contained in the Cannes resolution, January 6, 1922; second, the establishment of peace on a solid basis; third, conditions necessary to the restoration of economic confidence without endangering or altering existing treaties; fourth, financial questions, such as currency, paper money, banks and banking system; and fifth, economic and financial questions.

Experimental Shipment Of Frozen Fish

First Consignment Left B.C. For Atlantic Coast

Vancouver.—An experimental shipment of 200 tons of frozen fish, the first to go from British Columbia to the Atlantic coast by water, left here on the steamer Neponset, for New York, on Monday. The first consignment arrives in good condition. It is probable that much of the all-rail fish traffic from British Columbia to the east will be diverted to this route.

Honors Task Part in Ceremony For Unknown Warrior

Rome.—The United States paid tribute to the Italian unknown soldier, who lies beneath the nation's shrine in this city. United States soldiers forming a composite battalion, participated in the ceremonies held on the anniversary of the Congress of the Medal of Honor upon the Italian war. Richard W. Child, United States ambassador in Italy, delivered the oration at the tomb.

May Soon Take Seats

Asbestos Plant For Winnipeg
Toronto.—The Canadian Asbestos Company, which has its head offices in Montreal, has announced the opening of a distribution plant in Winnipeg to take care of the western business. Officials of the company are now on their way west to arrange details.

Cabinet Differences Add To Worry Of The British Premier

London.—The London Times says that the cabinet differences were so acute at the last week-end that there was a possibility that Premier Lloyd George would withdraw from the government and hand the reins over to Austen Chamberlain, who, heading a United Unionist party, would have a working majority of about 100 in the House of Commons, from which the Prime Minister's party would be absent.

The Times adds that this possibility may now be said to have disappeared. That Mr. Lloyd George was reluctant to leave office before completing the act of parliament involved in the Irish treaty was also keenly desirous of realising fully the possibilities of the Genoa conference.

The postponement of the reopening of the British Parliament from January until February was said to be due to the fact that parliament usually meets during the second week of February and that there was some financial "made work" to be done before it can reassemble.

The Evening Standard says it understands one of the main reasons for postponement is on account of problems in connection with drafting necessary legislation to put the Irish treaty into effect.

Many Questions of Great Importance Will Be Discussed

Paris.—The programme of the coming economic conference to be held in Genoa has been officially made public. The questions to be discussed will be first, examination into means for putting the world's economy on a sound basis, contained in the Cannes resolution, January 6, 1922; second, the establishment of peace on a solid basis; third, conditions necessary to the restoration of economic confidence without endangering or altering existing treaties; fourth, financial questions, such as currency, paper money, banks and banking system; and fifth, economic and financial questions.

Experimental Shipment Of Frozen Fish

First Consignment Left B.C. For Atlantic Coast

Vancouver.—An experimental shipment of 200 tons of frozen fish, the first to go from British Columbia to the Atlantic coast by water, left here on the steamer Neponset, for New York, on Monday. The first consignment arrives in good condition. It is probable that much of the all-rail fish traffic from British Columbia to the east will be diverted to this route.

Honors Task Part in Ceremony For Unknown Warrior

Rome.—The United States paid tribute to the Italian unknown soldier, who lies beneath the nation's shrine in this city. United States soldiers forming a composite battalion, participated in the ceremonies held on the anniversary of the Congress of the Medal of Honor upon the Italian war. Richard W. Child, United States ambassador in Italy, delivered the oration at the tomb.

May Soon Take Seats

Asbestos Plant For Winnipeg
Toronto.—The Canadian Asbestos Company, which has its head offices in Montreal, has announced the opening of a distribution plant in Winnipeg to take care of the western business. Officials of the company are now on their way west to arrange details.

Cabinet Differences Add To Worry Of The British Premier

London.—The London Times says that the cabinet differences were so acute at the last week-end that there was a possibility that Premier Lloyd George would withdraw from the government and hand the reins over to Austen Chamberlain, who, heading a United Unionist party, would have a working majority of about 100 in the House of Commons, from which the Prime Minister's party would be absent.

The Times adds that this possibility may now be said to have disappeared. That Mr. Lloyd George was reluctant to leave office before completing the act of parliament involved in the Irish treaty was also keenly desirous of realising fully the possibilities of the Genoa conference.

The postponement of the reopening of the British Parliament from January until February was said to be due to the fact that parliament usually meets during the second week of February and that there was some financial "made work" to be done before it can reassemble.

The Evening Standard says it understands one of the main reasons for postponement is on account of problems in connection with drafting necessary legislation to put the Irish treaty into effect.

THE HERALD.

Provincial News

Attorney-General Bromine has returned from Eastern Canada, where he has been investigating the working of the Ontario Temperance Act. It is expected he will issue a statement shortly as to what the government intends to do in the way of liquor legislation at the coming session. It is anticipated that drastic action along certain lines may be taken.

A misapprehension appears to have gained ground in many quarters in Southern Alberta to the effect that owners of autos must have licences whether the cars are in use or not. This is not correct. The owner of a car needs a licence only when he commences to operate his car on the public highway. He may leave it in the garage all winter without requiring a licence for it.

Members of the Provincial Government are considering the advisability of having the Workmen's Compensation Act extended to include medical services for sickness, and following this, to have the Act extended to include farm laborers. The effect of the first part would be to do away with all contracting work by private doctors at mines and other such places, since medical services would be supplied by the Workmen's Compensation Board for sickness under the fees paid by the workmen to the Board. The inclusion of farm help under the Compensation Act, with the extension to cover services for sickness, would do away probably with the necessity for institution of a health pill tax in the province, request for which has already been made.

A debenture issue totalling \$1,865,000 was sold by the Provincial Government this week to the Dominion Securities Corporation at the price of \$102.00 per \$100. This is the best price which has ever been obtained by the province for its bonds, and reflects the general confidence felt in the security of the province and in the administration of the government.

The C.G.I.T. are giving a concert in Grand Meadow schoolhouse on Friday, February 2nd, at 8 p.m. The ladies of the U.F.W.A. will serve refreshments. Admission 50c for concert and supper.

LACOMBE ALBERTA

Maintains Economy

Imperial Polarine Motor Oils save many thousands of dollars every year for Canadian motorists because of reduced operating expenses.

Imperial Polarine Motor Oils cut down repair and maintenance costs, reduce fuel bills and insure you for all time against excessive depreciation and repair expenses. Imperial Polarine quality maintains economy all along the line.

Judged by quality—gauged by actual miles of perfect lubrication each gallon will give, and by real motor satisfaction, Imperial Polarine is the least expensive motor lubricant that you can obtain. The more carefully you check up costs, the more thoroughly convinced you will be of the advantages of using Imperial Polarine Motor Oils exclusively.

Standardize on the correct grade of Imperial Polarine Motor Oils. Consult our Chart of Recommendations at your dealer's or write to 36 Church Street, Toronto, for our interesting booklet, "Automotive Lubrication."

IMPERIAL OIL LIMITED

Branches in all Cities

For a Clean, Efficient Motor

Clean out your crank-case every thousand miles or less. Imperial Oil dealers displaying the sign shown on the right, will flush your crank-case with Imperial Flushing Oil, a special oil prepared for cleaning agent for crank-case cleaning purposes. You save money in longer life and more efficient service from your motor by using this service.
